

UG SOLUTIONS

CAPABILITY STATEMENT
2026

A PMC FOR CHANGE.

POSITIONING

UG Solutions is a purpose-driven private solution when mission-ready copersators are required inside compressed timelines. By combining elite talent, proven field experience, and scalable infrastructure, we deliver results under the most demanding conditions.

03 ORGANIZED ACROSS THREE DIVISIONS

DIV / 01 GLOBAL RESPONSE DIVISION

UG Solutions is the operational backbone behind stabilization, humanitarian, and high-risk commercial efforts in the world's most complex environments. We enable aid delivery, protect reconstruction, and bring order to chaotic theaters like Gaza, Africa, and Haiti so programs function as intended.

DIV / 02 ADVANCED PROTECTION DIVISION

Intelligence-first executive protection with integrated cyber and investigative threat capability for heads of state, UHNW principals, and sensitive commercial or diplomatic activity. Scalable and low-profile by design, we combine proactive intelligence, elite operators, and technology to reduce risk while preserving mobility and lifestyle.

DIV / 03 THE SWAMP - TACTICAL TRAINING CENTER

A 284-acre advanced training facility featuring controlled airspace, live UAS payload integration, the largest shoot house on the East Coast, and multi-environment scenario training. It is where UG teams and partners prepare for real-world operating conditions.

THE UG DIFFERENCE

The photo negative of malign private military models. UG delivers disciplined force, incorruptible aid, and outcomes aligned to legitimate state objectives - with restraint, accountability, and a clear read on second-and-third order effects.
